

The Holistic Horse Conference

Your Gateway to Natural Equine Care

DAY

1

April Love

Horses Are Talking, Are You Listening?

Are you missing all the messages that your horse is giving you? It could be the way they look at you, they acting out they do, or how the hooves are shaped. See what you might be missing. And, what effect does the halter have on creating pain in the head (and fear)?

Sarah Griffiths

Equine Ulcers and Colic: Causes and Species-Specific Solutions

Colic, ulcers, metabolic diseases, insulin resistance, and more! It all seems like a lottery, a matter of when rather than how or why. Find out how to avoid these diseases.

Shelayne Fico

Beyond the Barn: Harnessing Aromatherapy for Happier, Healthier Horses

Ever wondered what aromatherapy can do, and how do you do it? It is actually very simple and it has many ways it can help horses. See how to use it with help from Shelayne - introducing it to a horse, how to rub it in to begin.

Dr. Renee Tucker

How to STOP treating symptoms and fix your horse

Here is a tip - equine heaves has changed names several times but we are no closer to the solution. We need to look at - why are they coughing? See what Dr. Renee can tell us about solutions to this and other diseases.

Dr. Joyce Harman

Help, my Supplement Bin is Overflowing!

Did you know that you may be following the directions on your fortified feed but your horse is still deficient? Joyce shows you how to simplify nutrition without compromising health.

2

Lola Michelin

What is Animal Bodywork and Why Does My Horse Need It

Explore what bodywork is, why your horse may need it, and how you can do it yourself. Listen to the great story of when Lola did it on a giraffe under anesthetic.

Karen Rohlf

The Happy Athlete Training Scale

Are you confused when you try and focus on the welfare of your horse yet still want to depend on sport-related results? Find out how to dove-tail these two so that your partnership is the best possible..

3

Dr. Elisha Edwards B,Sc., MBA

Leaky Gut - The Holistic Approach to Healing

We are hearing more about leaky gut and its impact on health. In this detailed webinar, discover the link between diet, gut, and microbiome. See what you can look for that can define a problem.

4

Debra Pearse, RMT-RP, CESMT, CCMP

The Power of PEMF and Holistic Therapies in Healing for Horses

Debra shows us how PEMF - Pulsed Electromagnetic Field Therapy can be used - what it does and how it can be combined with other therapies.. Find out how this treatment gets cells ready to receive healing.

Carol Walker

The Decimation of Wild Horses in America

The wild mustang is part of America's iconic heritage See how Carol fell in love with the wild horses as their lives are being diminished by the BLM (Bureau of Land Management). Have a listen to this lively discussion.

5

Dr. Jeff Grognet

Saving Money on Pet Care by Going Holistic

Dr. Jeff looks at how to save money and have a healthier pet - dog or cat. The plan is to go holistic. You will save money on vet care - less products bought through the vet and less visits to the hospital. Your pet will be healthier.

Lockie Phillips

The Truth About Emotion, Horses and Horsemanship

Lockie talks about emotion but not the way most people think. He looks at predicted behaviors and how to use that in your training of a horse. rather than triggered behaviors.

Jessica Lynn

The Hairy Horse: What is he Trying to Tell You?

We are seeing more horses with Cushings symptoms than ever before. What is the cause of it, and how do we treat it? Jessica brings up some ideas that your veterinarian may not have thought of.

Melisa Pearce

How Are Horses Natural Gestaltists?

Want to see what horses are capable of? You can call it emotional support but they do it by seeing right through us. Melisa brings several stories of horses in action, one a real tear-jerker. Not to be missed

6

Penny Zoolittle & Wendy Williamson, BAnVetBioSc, BVetSc

When a horse should eat fish

Penny and Wendy look at the importance of omega fatty acids - the ones that horses need in their feed. Impacted by what they eat, you can see how to detect an issue and how to fix it.

Tristan Carbery & Shelley Headley

A Three-Step Plan for Handling Equine Diseases

Tristan and Shelley took us into a discussion on a three-step process for treating disease. Then we delved into glyphosate and how to detox from it.

Joan Ranquet

Joan's Story: A Horse she Won at a Raffle Ignited her Career

Imagine winning a raffle - of a horse - when you are seven years old. That was Joan's introduction to the equine! Then, there was a path to becoming a communicator. See what things came together to create a great career that has lasted so long.

Lisa Diersen

The Power of Equine Storytelling

Lisa tells us about her entry into the very hard-to-crack equine film, art, and literature industry, creating a showcase of each of these. You can be a part - either watching the events or competing in them.
