

Join the conference next week!

Hello Lino,

Are you worried about your final moments with your friend? Many people are. This is why we got 30 pet professionals to tell you about what you can do to make that time better for you and your pet.

Check out the conference signup below—and get ready for the launch on Sept 30th. It is live for 9 days.

There are two new blogs for you. One of them is a detailed look at hydrolyzed diets. Considered a superior product by conventional veterinarians, there are some issues. If your dog or cat is on these, this is a must-watch.

The most common poisonings in dogs are marijuana. But it doesn't end there. Dogs have found a new way of poisoning themselves—vape cartridges. Check this out.

See you in class,

Dr. Jeff and Lino

These diets are used so much. Are they really that good?
